ADOLPH SANGER DEAD

THEY STRIKE AGAIN.

Niotheroy's Sailors Demand Higher Wages.

But Are Induced to Remain at the Old Pay.

Trouble and Dissatisfaction Extend to the America's Crew.

PERNAMBUCO, Jan. 3.—It is learned that the employees of the Brazilian cruiser Niotheroy struck for wages still higher than those originally demanded.

It was firmly announced to the crew last night that no more money would be paid to them even if it was found necessary to send every man ashore and to fill their places with Brazilians and others obtainable at different ports of Brazil.

The Niotheroy's crew laughed at the threat, and held out until to-day, when, to their astonishment, steps were taken to enable them to go ashore and to replace those going with Brazilians and others. This caused the crew of the Niotheroy to weaken, and they agreed to remain on board at the wages they were receiving.

Some of the sailors ashore speak in very harsh terms of their treatment on board the Niotheroy, and this may also be said in regard to the crew of the America.

In short, the spirit of dissatisfaction at the inaction of the Government and at the failure to enter into active operations against the enemy, combined with slack discipline and the fact that liquor has undoubtedly been smuggled on board, has had a very bad effect upon the crews of the Niotheroy and America.

It is said here that a number of men are in irons on board the Niotheroy as well as on board the America, and that serious disturbances have occurred on both vessels.

The latest report from the insurgent ships is to the effect that Admiral de Mello started north to meet the Niotheroy, but upon hearing that she had been reinforced by the America, the rebel Admiral is said to have put about and to have gone southward again.

ALL QUIET AT SANTOS.

Cruiser New York Fails to Answer Steamer Strabo's Signals.

Steamer Strabo, Capt. Fisher, arrived last evening from Santos, leaving that port on Dec. 2 and stopping at Bahia and Victoria. Capt. Fisher states that he was at Santos for fifteen days. There was no yellow fever in port or ashore. The health of the city was excellent.

Business was going on as usual, and the merchants cared but little as to the result of the situation at Rio so long as their interests were not disturbed. A large force of troops were stationed at Santos, and their presence has a tendency to make the people cautious of expressing sympathy for Mello. There were no men-of-war in Santos harbor.

Nothing was seen of Admiral Mello or any of his fleet. Merchant vessels entered the harbor without trouble or molestation. There had been no conflict between the populace and the military. Capt. Fisher reports that on Dec. 29 he signalled the United States cruiser New York, bound for Brazil, but Capt. Phillips, of the warship, failed to answer the Strabo's signals, a very unusual occurrence.

Capt. Fisher states that this is the first time in twenty years' experience that he has signalled a warship who refused to exchange the usual salutes. At Victoria and Bahia everything was remarkably quiet, no excitement whatever.

De Gama Forbidden to Bombard Rio Unless He Is Attacked.

PARIS, Jan. 3.—A despatch received here from Rio de Janeiro says that the commanders of the foreign warships at Rio have forbidden Admiral de Gama to bombard the city unless directly attacked by the land forces.

JIMMIE GALVIN ARRESTED.

Famous Twister One of Four Men Accused of Hobnobbing.

CLEVELAND, Jan. 3.—James Galvin, the famous ex-baseball pitcher, was arrested at an early hour this morning, with three other men, charged with stealing a diamond pin valued at \$200 from H. W. Hubbard.

The men were taken from a disreputable house. They deny their guilt and the stolen property was not found in their possession.

Alleged Polley Shop Raided.

Capt. Schmitberger and Policeman McDonald, of the Tenderloin Precinct, raided an alleged polley shop at 112 West Thirty-sixth street this morning, and arrested Philip Smith, said to be the proprietor. He was taken to Jefferson Market Court, the evidence being insufficient to hold him.

HAWAII VS. TARIFF.

The Way the Party Fight Is Opened in the House.

Branches of Congress Resume Their Session To-Day.

Ways and Means Planning How to Collect the Income Tax.

(By Associated Press.) WASHINGTON, Jan. 3.—There was not a very brilliant setting for the opening of the tariff debate in the House to-day. When Speaker Crier mounted the rostrum at high noon and dropped the gavel there were many vacant seats in the public galleries. The press gallery, however, was lined with newspaper correspondents.

On the floor there was considerable animation. Ex-Speaker Reed, Mr. Burrows, Mr. Dalzell and other Republican leaders were conferring earnestly, and on the Democratic side each member of the Ways and Means Committee was surrounded by a group of his colleagues.

After prayer of the chaplain and the reading of the journal, some preliminary business intervened. The resolutions of Col. Fellows and Mr. Pith, of New York, who have been elected, respectively, District Attorney and Comptroller of New York, were read, and the Speaker also presented the credentials of Mr. Adams, of Pennsylvania, who has been elected to succeed the late Mr. Neill.

The fight then began. Mr. Boutelle, on behalf of the Republicans, putting forward the Hawaiian matter to antagonize the tariff bill.

Mr. McCreary, the Chairman of the Foreign Affairs Committee, sought to avoid this subject by trying to make an arrangement by which Friday and Saturday of this week should be set aside for the consideration of the resolution reported by the Foreign Affairs Committee, in lieu of the Hitt and Boutelle resolutions.

Mr. Hitt, the head of the minority of the Finance Committee, was on his feet, and it was soon as Mr. McCreary had made his proposition he stated that he was not in favor of it, and that the Republicans substantially what they desired, namely, a time fixed for debate of the Hawaiian matter, he would be glad to accept it.

Mr. Pith, the Democrats failed to muster a quorum in the House, and until one is procured the tariff debate is blocked.

There is little prospect of a quorum to-day.

IN THE SENATE.

Small Attendance and Few Flowers at the Reopening.

(By Associated Press.) WASHINGTON, Jan. 3.—When the Vice-President rapped the Senate to order at 12 o'clock to-day hardly a score of Senators were in their seats, and it was some time before the members of a quorum could have been demonstrated.

The floral offerings of the New Year were not numerous. A luxuriant bouquet adorned the desk of Vice-President Spooner, and a smaller one of the same kind was placed on the desk of Mr. Allison, of Iowa, and Mills, of Texas.

Immediately after the reading of the roll, Senator Spooner, of Kentucky, presented the credentials of Senator Eppa Hunton, of Virginia, and the oath of office was administered to the new Senator.

Senator Frye, of Maine, presented a resolution declaring that, in the opinion of the Senate, during the investigation of the Committee on Foreign Relations, with Hawaii, there should be no interference on the part of the United States by influences of physical force for the restoration of Queen Liliuokalani, or for the maintenance of the Provisional Government of Hawaii, and that the United States should use only the protection of the islands only for the protection of the United States.

He asked that the resolution lie upon the table for the present, and stated that he would later ask its reference to the Committee on Foreign Relations.

INCOME TAX COLLECTIONS.

Probably to Be Based on Voluntary Reports of Income.

(By Associated Press.) WASHINGTON, Jan. 3.—Representatives McMillin and Bryan, of the Ways and Means Committee, were together to-day perfecting the details of the internal revenue section of the tariff bill.

The income tax feature is coming in for the greatest attention. As yet, however, few of the details of the assessment and collection of tax have been perfected. The first collection of such a measure is concluded to do away with assessors and collectors, who would ferret out incomes, and to place the main reliance on voluntary reports from those receiving incomes of over \$4,000.

Another important feature which is practically decided on is that by which foreign investments in domestic securities will be covered by the tax.

O'ROURKE WILL ACT.

Official Investigation Into Michael Barron's Death.

Gouverneur Hospital Ambulance Doctors Refused to Attend Him.

Pronounced Him Drunk When He Was Mortally Injured.

(By Associated Press.) WARDEN O'Rourke, of Bellevue Hospital, who has direct supervision over the ambulance service in the hospitals under the jurisdiction of the Department of Charities and Correction, began an investigation to-day into the death of Michael Barron, alleged to have been caused by the negligence of two surgeons attached to Gouverneur Hospital. If the charges are sustained it is probable that the Warden will recommend their dismissal to the Charities Commissioners.

"I read the story of Barron's death," the Warden said to an "Evening World" reporter, "and I am summoned an ambulance to make a thorough investigation. On the face of it, it seems that the Department rules have been grossly violated, but it is only right to see what the ambulance surgeons have to say for themselves."

"There is an express rule upon this very subject and I want to find out if it has been violated. I will say no more until after I have made an investigation."

"Cases of death from the alleged negligence of ambulance surgeons have been numerous of late. Only yesterday one such case was reported from the Harlem Hospital, which is also within the jurisdiction of the Charities Department. Already there is an outcry against the ambulance service."

Barron's case, which the Warden is investigating, is peculiar. He was a journeyman printer, and while in the act of escorting a party of companions home from a party at the Hotel New York, he was struck by a car at 10 o'clock yesterday morning. He fell two stories through the air shaft of his home, and was killed.

Policeman Thomas Hennehy, of the Madison street police station, was called to the scene and examined the man, who was found lying on the sidewalk. He was taken to the hospital, where he was pronounced dead.

Dr. Joseph Manning, of 75 Madison street, was then called in, and he at once pronounced Barron to be badly injured. He was taken to his home in a carriage, where he died.

The man had sustained a compound fracture of the base of the skull, and had two of his ribs broken. He had also a fractured hip, and died last evening Barron died.

TO WEAK TO APPEAR IN COURT.

Little Arthur Bell's Case Now Before the Grand Jury.

LONG ISLAND CITY, L. I., Jan. 3.—The Grand Jury met to-day to investigate the case of little Arthur Bell, who is alleged to have been cruelly treated by his father, Rev. Edward Bell, and also by his mother. The little boy, who has been in the Astor Hospital to North Beach Island this morning, was brought before the Grand Jury to-day, but Agent Meyer, of the Brooklyn County for the Prevention of Cruelty to Children, notified that the boy was in such a weak condition that he could not be taken to the court-house.

STOKES MU ST GO TO JERSEY.

An Order to Produce the Hoffman House Books in Newark.

NEWARK, N. J., Jan. 3.—Vice-Chancellor Greene to-day issued an order calling on Edward S. Stokes to produce the books of the Hoffman House Corporation in the Henry County case at Newark, at 10 o'clock to-morrow morning.

The receivers appointed by the Vice-Chancellor last week reported to him this morning that they had asked to see the books of the Hoffman House, but that their request had been refused. It was upon these grounds that the Vice-Chancellor issued the order.

MUST JUDGE REILLY GO?

Rumor that Rice Will Succeed Him in the Court of Claims.

(By Associated Press.) ALBANY, Jan. 3.—The rumor that Judge Hugh Reilly, of the Court of Claims, would be asked to resign his office, was revived to-day, and it was said that his probable successor would be Judge Rice, ex-Secretary of State.

For this reason it has been practically concluded to do away with assessors and collectors, who would ferret out incomes, and to place the main reliance on voluntary reports from those receiving incomes of over \$4,000.

WORK FOR THE POOR.

Heads of City Departments Agree to Furnish It.

Andrews Can Employ 100 on Full Time and 283 on Half Week.

Bonds for \$1,000,000 to Be Asked for Park Improvements.

The heads of the city departments met in the Mayor's office at 11:30 this morning in pursuance of a call issued by the Mayor for a conference of the chiefs on ways and means to relieve the condition of the unemployed.

The conference was held behind closed doors. Mayor Gilroy convoked his advisers after consultation with Dr. Stanton, of the University Settlement, and his Committee of Trades Union representatives.

This committee was appointed to call on Mayor and request him to provide work on city improvements for unemployed workmen.

Mayor Gilroy presided at the conference. Every department was represented. The Mayor asked each chief what he could do to furnish work for the unemployed.

Street-Cleaning Commissioner Andrews said he could put 100 extra men to work on full time and give half a week's work to 283 others without exceeding his appropriation.

President Tappen, of the Park Department, estimated that seventy extra men could be employed in the parks. The Mayor asked about work on the Speedway, and urged that the matter be hurried along.

Rids for the construction of the first mile of the driveway will be opened on the 15th.

The contracts, if there be no hitch, will be awarded without delay, and the work can be proceeded with once the contractor who gets the work will employ his own workmen.

Corporation Counsel Clark, President Tappen, Park Commissioner Dana and Henry R. Beckman, representing the Relief Committee, appointed by President Seth Low, were named a committee to draft a bill, which will be presented to the Mayor, authorizing the city to issue \$1,000,000 bonds for park improvements and 600 more men could be given employment.

Street Improvement Commissioner Harfen, of the Annexed District, reported that he had 140 men at work and would put 100 more to work next week. The representatives of the Dock, Fire and Police departments and the Aqueduct Board told the Mayor that they could make no increase in their forces.

Contractor John D. Crimmins, who is an employer of labor on a large scale, was present and promised to do what he could to help.

On motion of Aqueduct Commissioner Scott it was decided to employ only residents of New York on public works for the support of the unemployed.

The Mayor will this afternoon appoint a Relief Committee, consisting of Dr. Stanton, and on seeing Barron's condition he at once turned in a second ambulance call.

On this call Dr. J. R. Kelly responded, and a like performance was gone through with. Sagely shaking his head, he said that Barron was only drunk, and drove back to the hospital without doing anything whatever for the unconscious man.

Dr. Joseph Manning, of 75 Madison street, was then called in, and he at once pronounced Barron to be badly injured. He was taken to his home in a carriage, where he died.

GOOD NEWS FOR THE BOYS.

The condition of the State Treasury is in every way gratifying.

MADE HER HUSBAND PRISONER.

Although He Is a Detective Mrs. Curtis Landed Him in Court.

Then She Asked the Justice to Settle Domestic Troubles.

A pretty little woman with dark hair and flashing black eyes led her husband, Edward H. Curtis, to the bar in the Adams Street Police Court, Brooklyn, this morning and asked Judge Walsh to settle their domestic difficulties. Curtis is employed as a detective at Ellis Island.

"The couple live at 101 State street," Mrs. Curtis said. "He calls me vile names, and if I stop to rest for a moment after working hard all day he raises a great storm. He swears, too."

"My wife gives me no rest," Curtis put in. "She frequently throws things at me, and she goes around among my friends telling stories to injure me. 'Why, she hasn't the slightest regard for me,' she hasn't kissed me in three years."

"I have listened to your story," Justice Walsh said, addressing the detective. "You come to me and I'll issue a warrant for his arrest. The court-room with their arms linked."

KNAUER ELECTED PRESIDENT.

Chosen by Long Island City Aldermen as a Compromise.

LONG ISLAND CITY, L. I., Jan. 3.—The new Board of Aldermen of Long Island City were in session until after midnight, halting for a President. The deadlock was finally broken by the election of Alderman Edward J. Knauer, who is a Republican.

The other candidates were Joseph McGee, Independent Democrat, and Benjamin Wingrove, a supporter of Mayor Sanford. Mayor Sanford used all his influence in favor of Wingrove, and favored the appointment of ex-Alderman Claven, formerly President of the Board, as Chairman of the new Improvement Commission which is to spend \$100,000 on the city.

Mr. Richardson owned the Sea Side Hotel at Rockaway Beach, which was burned Sept. 12, 1892. He claims that the failure of the Water Company to supply water for the purposes resulted in the total destruction of his hotel.

Justice Cullen holds that the failure of the Water Company to perform its contract with the town renders it liable. The decision is a precedent, and will be appealed.

Big Utah Foreclosure Suit.

OGDEN, Utah, Jan. 3.—The Jarvis-Conkling Trust Company has moved in the District Court for a foreclosure of a mortgage amounting to over \$2,000,000. The suit involves the great irrigation canal system covering a vast tract lying between the northern shore of the Great Salt Lake and the southern boundary of Idaho.

IT MAY BRING GOOD SKATING.

Cold Wave, with Icicles, Coming from the Northwest.

Will Arrive To-Morrow and Begin Work Friday.

Witness Joseph A. Dallon Supposedly Saw Him Drown.

According to Local Forecast Official Dunn, there is a big cold wave travelling rapidly in this direction from the Northwest. The outer edge of it will be felt to-morrow morning, and by Friday it should be cold as Greenland, or thereabouts.

Mr. Dunn thinks that there should be good skating by the latter part of the week. Said he:

"It is too early to tell the exact extent of the cold wave, but it looks as if it would last long enough to give New Yorkers a few days of good skating."

The forecast was a little doubtful about Central Park, but Van Corlaet Lake, he thinks, will freeze in true ice-land style.

There were slight flurries of snow, and the temperature fell steadily in all the Northwestern States last night. This will tend to make the cold wave all the more severe.

The temperature in this city at 8 o'clock this morning was 32 degrees. It was 34 at Houston, 24 at Albany, 40 at Buffalo, 36 at Chicago, 8 below at Morehead, and 14 below at St. Vincent. The weather is generally fair with light winds.

Mr. Dunn's official forecast is, fair to day, followed to-night by light showers, and for Thursday, fair and colder.

Weather Forecast.

The weather forecast for the thirty-six hours ending at 8 P. M. to-morrow is as follows: Fair, followed by showers to-night and Thursday morning, warmer, followed by rain during the day on Friday.

The following record shows the changes in the weather since the thermometer at Perry's pharmacy, 1 A. M., 23.8 A. M., 31.2 A. M., 26.12 M., 40.

\$100,000 PAINTING RUINED.

"Le Roi d'Amuse" Meets Its Fate in a St. Louis Elevator.

(By Associated Press.) ST. LOUIS, Jan. 3.—"Le Roi d'Amuse," a masterpiece by the French painter Jules Arsene Garnier, valued at \$100,000, and owned by the late S. A. Coale, has been irretrievably ruined while being moved from the Laclede building.

The picture was too large for the elevator and caught on a projection of the wall. The frame and glass broke, tearing and cutting the painting beyond all hope of restoration.

The painting, since its creation in 1887, has had an eventful history. It was ordered out of England by the authorities.

TO DISTRIBUTE THE MONEY.

The Committee that Will Disburse the Abraham and Straus Fund.

Mayor Schieren, of Brooklyn, to-day appointed the following committee to distribute among the poor the money contributed by Abraham & Straus, the dry-goods merchants: Gen. C. T. Christensen, W. A. White, Darwin H. James, A. D. Wheeler, Abraham Abraham, Moses Day and James McMahon.

CLOTHING TO BE PRODUCED.

John C. Austin Demanded.

Witness Joseph A. Dallon Supposedly Saw Him Drown.

The second day of the trial of the suit of John C. Austin's relatives against the Mutual Reserve Fund Life Association to recover \$15,000 insurance money on his life, began to-day with the court-room crowded to the fullest capacity.

The crowd to-day was attracted largely by the intimation that the plaintiffs' counsel would introduce a witness who would swear positively that he saw Austin drown at Manhattan Beach.

The Adirondack gullies, who were brought to this city on two former occasions, when the trial was expected to occur, have not arrived, but it is said the counsel for the defense expect them to-day.

When the trial opened to-day Col. James said that he wished to recall, during the day, Theresa Maher, the last witness yesterday, and that he wanted a suit of clothes found in the bath-house July 4, 1891, and alleged to be Austin's, produced in court.

The defense acquiesced. The plaintiff's counsel, however, offered in evidence the clothing of Austin, and the jury was asked to find if it was his.

Lawyer O'Gorman, for the plaintiff, offered in evidence the clothing of Austin, and the jury was asked to find if it was his.

Lawyer O'Gorman then proposed to offer in evidence a copy of Austin's will, Col. James was on his feet in a moment with "I object."

Col. James offered to offer the will must produce the original, not a copy," he protested, and Justice Patterson so ordered.

Lawyer O'Gorman then offered in evidence the clothing of Austin, and the jury was asked to find if it was his.

Col. James then read from an affidavit in which he fixed the time of seeing the men swimming at a little past 3, and then he pointed out the astute lawyer, who seemed to get the witness to fix some specific time, but Mr. Dallon said he had no watch at that time.

Witness said he went to the beach after hearing the report. Col. James asked him if he did not know the exact time he saw the men swim, and he replied that he was not sure.

A special meeting of the Board of Aldermen will be held on Friday morning, to take action on Mr. Sanger's death.

GEORGE W. SAVAGE DEAD.

Former New Yorker, Lately United States Consul at Dundee.

LONDON, Jan. 3.—George W. Savage, United States Consul at Dundee, Scotland, died to-day.

Mr. Savage was born at West Point, N. Y., in 1815. He was the first President of the Board of Underwriters of New York, representing the London Merchants' Association, and he also was instrumental in organizing the fire patrol of New York. He was President of the Mount Washington Club of the International Star and Columbia Insurance companies, and the

ADOLPH SANGER DEAD.

President of the Board of Education Succumbs to Pneumonia.

He Was a Graduate of the Columbia College Law School.

Once Made President of Board of Aldermen by Popular Vote.

Adolph L. Sanger, President of the Board of Education, died suddenly at his home, 50 East Sixty-third street, at 8.30 this morning.

The cause of death was heart failure, superinduced by pneumonia.

Mr. Sanger contracted a heavy cold about ten days ago, but he visited his law office at 115 Broadway every day and attended to his practice.

He paid but little attention to the cold, declaring when advised to remain at home that he was not seriously affected, and that it would wear off in a few days.

Friday afternoon he was taken seriously ill, and was obliged to leave his office and go home. He went to bed at once and Dr. Adler was called and diagnosed the case as grip. He prescribed for the patient rest and warm food.

When he returned Saturday morning he found Mr. Sanger much worse, the cold having developed into pneumonia.

Dr. Stein was then called in consultation, but in spite of all the two physicians could do the patient grew weaker and rapidly worse until yesterday, when a slight improvement was observed.

None of the family entertained grave doubts as to his ultimate recovery until after midnight this morning, when he began to grow weaker and his respiration more labored.

Two hours later his brother, three daughters and law partner, M. S. Isaacs, were at his bedside. He was unable to be conscious, but unable to speak.

Just before the moment of dissolution he looked up, which the room, then closed his eyes and died.

Adolph L. Sanger was born in Baton Rouge, La., Oct. 8, 1841. He came to this city in 1850. He had lived here continuously since then, and achieved considerable success in business.

Two years later Mr. Sanger secured his law degree from the Columbia College Law School and almost directly began a law partnership with Mr. Hoffman.

Gov. Hoffman in 1870 appointed Mr. Sanger Commissioner of the United States Land Office, and in 1872 he was elected President of the Board of Aldermen on the Democratic ticket by a plurality of 5,000 votes. He was the first President of the Board of Aldermen to be elected by popular vote.

During 1888 he was Chairman of the Committee which entered the French officers who brought the Bartholdi statue from France.

He was chosen a Presidential Elector in 1880 and again in 1884, and in 1887 Mayor Hewitt appointed him to the Board of Education. He was re-elected in 1890, and on Jan. 12, 1893, Mr. Sanger was elected to the Board of Education by a large majority.
